WHO ARE WE?

CROWNSMILL Limited is a wholly owned Zambian company that is dully registered with the registrar of companies and was fully registered on 30th March 2020. It covers all aspects of work in the area of Mining, Engineering, Transport and Supply and Delivery of top-quality goods and services that satisfy our clients' needs and exceed their expectations.

We are a full service mining contractor, engineering, transport, and industry equipment and products supplies firm specializing in maintenance and repair of mining equipment, transportation as well as supply of various goods ranging from mining equipment, vehicle spares, office equipment, office furniture, stationery, office supplies, Cleaning materials, food stuffs, landscaping, electrification, food stuffs, agriculture inputs, hospital equipment and materials just to mention a few.

We are committed to building value for our customers, and our business and for communities that we operate in. We also offer professional quality and timely services at competitive price structures bearing in mind the ever-rising costs in these times.

Our work is honest and aims at building trust with all our clients and believe in operating in an environment where a level playing field is cardinal for all the stakeholders to participate in accordingly. As a company we promote high standards and good environmental practices, and put health and safety as a priority and we also aim to uphold fundamental human rights and dignity at all times.

Crownsmill limited is managed by fully qualified Mechanical and Mining Engineers who have been in industry for a long time and have acquired necessary experience to provide goods and services to meet our clients' needs and expectations.

OUR MISSION

CROWNSMILL LIMITED is dedicated to build our reputation for quality, integrity, excellence and reliability as one of the best mining equipment, repair and maintenance, engineering, transportation and supplier of goods and services by:

1. Continuously improving the standards and quality of our products and services;
2. Providing long-term support and commitment to our clients, and constantly striving to exceed each client's expectations;
3. Maintaining our dedication to the highest moral principles and standards, sustainable environmental practices, health and safety standards
4. Always being innovative in our service delivery as we endeavor to meet our client needs.

SCOPE OF SERVICES

Repair & Maintenance of Equipment Services

At **CROWSMILL** we carry out overhauls on a range of heavy mining equipment as well as other related machine rebuilds. We provide equipment upgrades and maintenance enabling your company to stay competitive 24/7. We are always on hand to provide engineering services that perfectly match the wide range of equipment repairs, maintenance, and modifications required in these industries that are demanding. Some of the services we provide are:

1. We repair equipment such as loaders, dump trucks and drilling equipment
2. Repair and maintenance of worn parts
3. Basic mechanical machining
4. Mining compliance modifications
5. Equipment rebuilds
6. Machinery/ Component overhaul & repairs
- 7.

We carry out major equipment overhauls. Component overhauls include Drifters (or Hammers), Buckets and Dump boxes, Cylinders, Transmissions, Axles, Torque Converters, and Electrical panels. The company has established contact with credible suppliers of parts overseas. Clients are invited to witness disassembly and assembly of their failed components.

We have highly skilled tradespeople, with good management systems that ensure your equipment is repaired or overhauled on schedule, and on a budget and to the highest of standards.

We employ fully qualified tradesmen with traceable training and backgrounds in repair and maintenance of recognized brands of machinery and components to handle the works.

OUR CORE VALUES

We will adhere closely to these core values which will be the cornerstone of Crownsmill's success:

1. Trustworthy
2. Customer Focused
3. Innovation
4. Team Work
5. Expertise
6. Leadership
7. Integrity
8. Professionalism
9. Fairness
10. Safety
11. Respect
12. Open Mindedness

OUR VISION

To be the preferred contractor and supplier of goods and services of choice in Zambia offering competitive engineering expertise to mining companies and other organizations utilizing earth moving equipment in Zambia and beyond borders.

Labour Hire & Maintenance Contracting

We provide quality labour support services to the mines and others sectors. We aim to perfectly match our clients with the right personnel for short- and long-term placements. We provide reliable, flexible and mobile solutions for your ever workforce need. Our goal is to help you maximize productivity and minimize risk so that you can reap the rewards We offer the following:

Maintenance personnel - the list includes but not limited to:

1. Stores personnel
2. Safety advisors
3. Electricians
4. Engineers
5. Labourers
6. Instrument technicians
7. Sheet Metal workers
8. Site Administration personnel
9. Mechanical technicians and artisans for fixed plants
10. Heavy equipment technicians for mobile earth moving equipment
11. Power and Auto electricians for all types of equipment, plants and vehicles
12. Electronic technicians for electronic equipment
13. Boiler makers and coded welders for any rehabs, fabrication or welding jobs
14. Operators for any mobile equipment
15. Supervisory personnel for workshop
16. Maintenance planners for planning of maintenance short term or long term.

Repair and Maintenance Contracts - types of contracts include:

On-Site Deployment - the client's needs are evaluated and a team of technical personnel to address the needs is offered on contract basis. The team maintains the client's equipment on daily basis. It carries out daily, periodic and component target life replacements. A planner and a supervisor/manager are usually attached to the maintenance team to strategically guide the team. A repair and maintenance contract is agreed upon with monthly performance reviews.

Mobile/Call Out Crews - highly trained technicians periodically visit the customer to carry out periodic maintenance as well as to change major components which achieve their design life. The team is also available on call out basis for the clients who experience breakdowns with equipment. A contract is also needed for this type of service.
