

Company Profile

BRANDING | SUPPLY | CONTRACTING | ENGINEERING

Welcome To Our Company

Exentric Projects Limited is a private limited company incorporated in the Republic of Zambia pursuant to the provisions of the Companies Act.

We have built leverage as a business engaged in Branding, Supply of various goods and General Engineering. Over the years, we have been able to create a niche in our diverse products and services to various clientele. We thus like to position ourselves as an SME that is readily able to provide expertised goods and services whenever contracted.

We have perfected the ability to adhere to contractual obligations that form the basis of our relations with our customers.

Through every contract that we are privileged to deliver on, our mission is to execute our obligations in a manner that will help us achieve market leadership. We desire to be trendsetters in meeting customer expectations in a manner that will create business continuity.

Like many of our references will prove, for us business continuity is fundamental and we only achieve that through adherence to set values.

Our Core Values

At Exentric Projects Limited, three values are important for us in the all our engagements. We place a premium on Integrity, Reliability and Efficiency. Through upholding these values, our clientele is rest assured of our reliable delivery.
