STRUCTURE

information:

AIR CONDITIONING SERVICES

information:

Split Airconditioners

The most popular choice today for home airconditioning, these have separate indoor and outdoor units, requiring only a small hole for installation, and are very quiet in operation.

Under ceiling Air conditioners

Floor Standing Air Conditioners

Ideal for large open-plan areas especially retail or commercial environments. Eco-friendly R410A gas Heating/cooling
Indoor airflow up to 5100 m3/h

Ceiling Cassettes

Mounted in the ceiling, these are often used in commercial applications as well as in upmarket homes. Like Splits, they have separate outdoor units and are extremely quiet.

Window Wall Units

Basic entry-level units, these are available in heating and cooling as well as cooling only. As they require a large opening to be made in a wall or window, they are best suited for applications where provision for them is made at building design stage.

■ We Supply, Maintain & Repairs All types of air conditioning products.
