## COMPANY BACKGROUND

Power Mind Projects (Pty) Ltd. was founded in South Africa in the year 2020 with the primary goal of being a service provider company within the telecoms infrastructure and civil engineering.

With a growing demand for engineering services in the mining industry, Power Mind Project began to work with selected companies in the D.R. Congo from 2021 and eventually registered as Power Mind Project SARL in the footsteps of ARSP as a 100% Congolese company in various construction projects.

Power Mind Project SARL is a multidisciplinary engineering firm providing integrated, high-quality engineering design, management services, mining industry solutions, and Supply specific equipment.

## GOAL AND MISSION

We pride ourselves in being a progressive and innovative firm. We work with a widespread portfolio of both public and private clients on projects ranging in size from individual residential properties through to the development of complex industrial plants.

It is our goal to provide a client centered approach in order to establish continuous loyalty and long term relationship.

## APPROACH

We leverage our extensive experience from globally delivered projects together with technological innovation to effectively and efficiently deliver sustainable solutions.

The extensive disciplines of our in-house team identify the unique demands of each project. Working side by side, as necessary, with our partners to create bespoke effective, efficient, sustainable and functional project solutions.

## CAPABILITIES

We are a full-service firm with the capabilities needed to lead a project through all phases of the development process, from planning through start-up and commissioning.

## CIVIL ENGINEERING

### CIVIL ENGINEERING

- Site Assessment
- Site Development
- Earthworks
- Storm Water Drainage
- Water Engineering
- Wastewater Drainage
- Roads
- Bridge Assessments
- Condition Audits
- Construction and maintenance

### STRUCTURAL ENGINEERING

- Industrial Structures & Buildings
- Industrial Bunds & Tank Plinths
- Commercial Buildings & Fit-Outs
- Bridge Repair.
- Annual Legislated Condition Audits
- Residential Structures Utilizing All Building Methods, Including Unusual Building Techniques, including timber and glazing.

## CIVIL ENGINEERING

### MAINTENANCE SERVICES

- Mining industry solution
- Industrial maintenance
- Formwork and scaffolding (All-around mining Layher solution)
- Structural steelworks construction
- Electrical and maintenance
- Lagging
- Building maintenance
- Fit and Supply

### PROJECT MANAGEMENT

- Project Management Covers The Control Of A Project's Initiation, Planning, execution, and closing out.
- The Process Ensures Specific Goals Are Achieved Within The Given Constraints Of Time, Cost, and Quality.

## CIVIL ENGINEERING

### BLAST RESISTANCE ENGINEERING

- Explosive License Circles
- Public & Process Impact Assessment Reports
- Blast Mounds
- Control Rooms Above & Underground
- Process Structures
- Blast Doors Design & Detailing

## CIVIL ENGINEERING

### DEMOLITION ENGINEERING

- Preparation Of Legislated Demolition Plans For Masonry, Concrete & Steel Structures.
- Identification Of Method Of Works For Conducting Demolition Works.

### EPCM

- Engineering Procurement & Construction Management (EPCM) Is Our Preferred Method To Undertake Large-Scale Complex Projects Requiring The Coordination Of Interlinked Disciplines, As It Allows Us To Provide Our Clients With The Finished Product They Requested To Their Specifications, At An Acceptable Cost And Within The Approved Project Duration.

## CIVIL ENGINEERING

### HERITAGE ENGINEERING

- Condition assessment of Heritage Structures
- Design And Monitoring Of Repair Of Heritage Masonry Structures
- Design And Monitoring Of Repair Of Heritage Victorian Cast Iron Features
- Design And Monitoring Of Repair Of Heritage Cut Stone Structures
- Design And Monitoring Of Repair Of Heritage Timber Structures.

### TELECOMS INFRASTRUCTURE SOLUTION

- Mast And Tower Maintenance
- Structure Loading And Peripheral Equipment (Antennae)
- Radio Equipment Installation, Commissioning And Upgrades
- Rigging Towers
- RF Antenna And Microwave Installation
- Cellular Site Light Civil Works And Construction
- Line And Antenna Sweep Testing
- Network Power
- Site Acquisition And Permitting

## CIVIL ENGINEERING

### CONSTRUCTION MONITORING

- Construction Monitoring Involves The Professional Evaluation And Verification Of Quality, Accuracy, Cost, And Progress Of A Construction Project In Order To Our Clients With Compete Project Control.

## ELECTROMECHANIQUE ENGINEERING

### MECHANICAL

- System Design
- Electromechanical Design
- 3D Design / Concept Design
- Manufacturing
- Mechanical Structure
- Research and Development

# ELECTROMECHANIQUE ENGINEERING

## AUTOMATION / INSTRUMENTATION

- PLC PROGRAMMING (LOGIC CONTROLLER PROGRAMMING)
- Embedded Programming
- Control System
- Monitoring System
- Automotive Tracking System
- Process Engineering
- Information Capturing
- Quality Surveying.
- Quality Control.
- Fabrication
- System Design
- Pneumatic / Hydraulic System

## SOLAR SYSTEM

- Back Up System
- DB Board Upgrade
- SNEL Interconnection Solar System
- Monitoring System via WiFi
- Upgrade System / Review

## LOGISTIC, TRANSPORTATION, AND SUPPLY

### LOGISTICS/ TRANSPORTATION

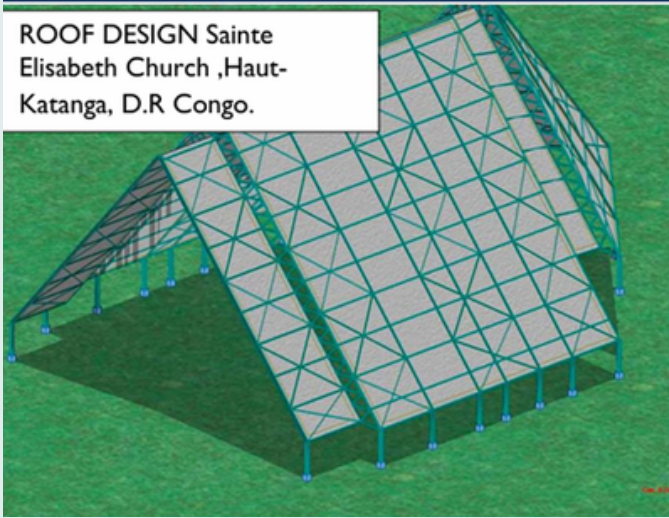

- Good Collection and Delivery
- All the world's coverage delivery/collection
- Electrical Product
- Mechanical Product
- Chemical Products
- Construction Equipment
- Fit & Supply Containers Housing
- Pump & Valve

### SUPPLY

- Food
- Beverages
- Fuel
- Construction and Electrical material
- Agro-VET
- Chemical Products
- Office Container - Modular Buildings

# PROJECTS

ROOF DESIGN Sainte Elisabeth Church ,Haut-Katanga, D.R Congo.

CNC machine building  
And wiring

Lithium Battery  
building with  
customized BMS

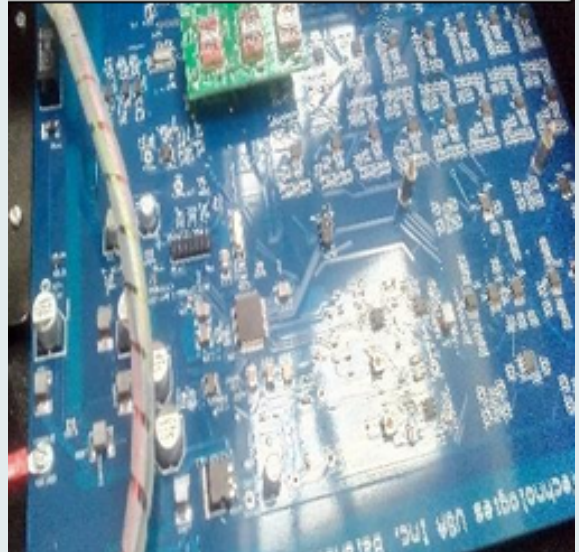

# PROJECTS

Steelworks Warehouse,  
Lualaba , D.R Congo.

PCB development

Mobile Tower Antenna for  
mining solution and No  
coverage Sectors solution.

300 Solar panels  
Installation high voltage  
system

# PROJECTS

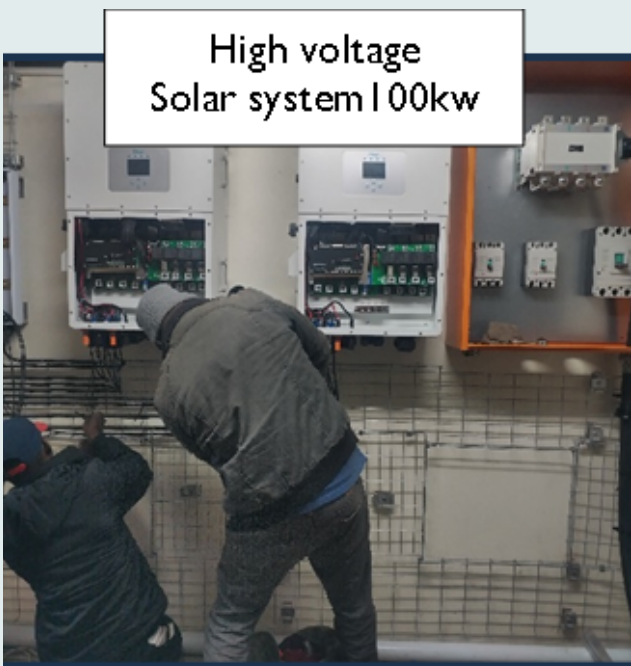

# PROJECTS

Wiring of Control box and plc programming, for Zambian customer

Transportation and installation of sealing system in cape town south Africa

High voltage Solar system 100kw

Generator installation With ATS (Genset/others)

## PROJECTS

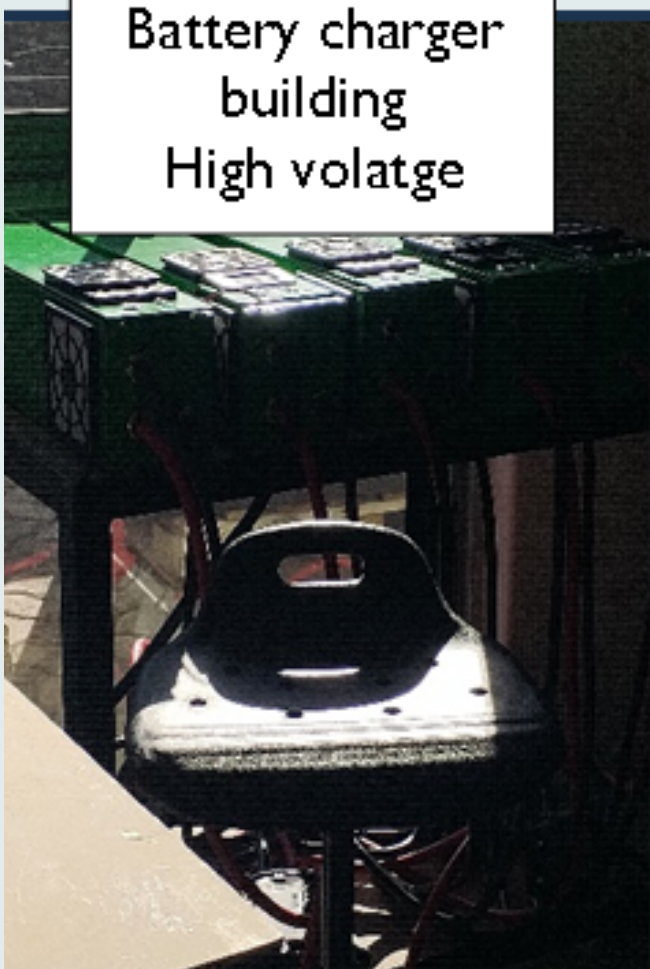

Home solar system installation  
Inverters in parallels

Automation system  
monitoring  
For chemical processing.

Battery charger  
building  
High voltage

Die system  
Control board

## PROJECTS

Die system System repair  
And Upgrade

300 Solar panels  
Installation high voltage  
system

Brewery, aluminum tanks  
construction, electrical and  
programming
